To my many friends, customers and persons planning to plant an orchard this Fall or Spring, 1939. This catalogue and prices is sent to those of you who may wish to place your order early for shipment this Fall or Spring, 1939. A more complete and descriptive catalogue will be sent to you later.

We have enjoyed a very fine growing season here. This has enabled me to offer you trees that have made a very vigorous growth and of the type that I have been supplying my customers from year to year. This is enough explanation for my old customers as they continue to purchase their planting needs from me over a long period of years. To you customers who have been purchasing nurs-

ery stock from me I extend my thanks and I want to assure you that we are striving at all times to produce stock of the highest type so that we may continue being favored with your patronage.

To anyone planning to plant an orchard, who has not purchased from me in past years, I invite you to come and see the trees as they grow in the nursery rows if possible. If you cannot do this, I may be able to refer you to some one near you who has bought from me in the past. No better reference can be given than a pleased customer.

An EXTRA SERVICE  
for your PROTECTION || •

We have employed Prof. W. H. Upshall, of Vineland Experiment Station, Ontario, Canada, a noted authority on identification of stone fruit varieties, to examine our blocks of peaches, plums, pears and cherries in the nursery rows this past Summer. Our apple blocks have been checked at different times by competent men. We have added this additional expense to the cost of production of our trees thus enabling us to offer our customers trees that they can plant with more assurance that they will be true to name.

REDUCED PRICES—I offer you as fine a lot of fruit trees as can be grown at PRICES LOWER than they have been in years. If you are planning to plant an orchard, PLACE YOUR ORDER EARLY.
